EDUCATION

College of Charleston Honors College / Charleston, SC / Graduated Cum Laude May 2013
BA, Computer Science & Computing in the Arts
GPA: 3.54 / Computer Science 3.69 / Computing in the Arts 3.69

EXPERIENCE

Time Inc. / New York, NY / June 2013 - Present
Assistant Web Developer
Built online subscription forms and ad units using HTML5, CSS, JavaScript, Apache Velocity, and jQuery for Time Inc.'s publications including People, Entertainment Weekly, InStyle, Time, and more.

College of Charleston Department of Computer Science / Charleston, SC / January 2013 – May 2013
Website Designer
Used Adobe Dreamweaver to design a website for the Computing in the Arts department's National Science Foundation project entitled Computing in the Arts: A Model Curriculum (www.cs.cofc.edu/~manaris/cita/).

College of Charleston Jewish Student Union & Hillel / Charleston, SC / August 2012 – April 2013
Marketing & Social Media Intern
Used Adobe Photoshop to design advertisements, flyers, and invitations for upcoming events. Updated multiple social media platforms such as Twitter and Facebook, and launched presence on Instagram. Used Constant Contact to send weekly emails to the students of JSU/Hillel. Led the rebranding of the JSU/Hillel; including a new logo and general aesthetic to better promote the organization to incoming students.

The Parson's Table Restaurant / Little River, SC / June 2009 – May 2013
Website Designer / Information Data Management and Analysis
Managed menu design themes and social media branding. Updated menu-pricing changes and tracked profit and loss from restaurant daily operations. Used Adobe Dreamweaver and OpenTable to redesign the restaurant's desktop/mobile website (www.parsonstable.com). Launched social media presence on Facebook, Twitter, and Instagram.

Viacom Media Networks / New York, NY / May 2012 – August 2012
Comedy Central Mobile & Emerging Platforms Intern
Built out and maintained sponsorships in Netbiscuits; built pages and created ad calls. Updated the mobile carousel and headlines on the Comedy Central and Spike websites daily. Updated the Tosh.O Caption Challenge weekly on the mobile Comedy Central website. Monitored web traffic and provided regular reports in Omniture. Presented a redesign of the CC: On Air mobile app.

SKILLS

JavaScript, jQuery, HTML5, CSS, Apache Velocity, Python, Java, C, C++
